

INTEROFFICE MEMORANDUM

TO: Principal Director for Computing Services (CSD)

FROM: Chief Information Officer (CIO)

DATE: 28 MAR 2003

SUBJECT: Statement of Accreditation for the Core Automated Maintenance System for Mobility G081 Application System, Tracking Number 7629905

References: (a) DISA Instruction 630-230-19, Information Systems Security Program, 9 July 1996

(b) DISA IM, CIO, Statement of Accreditation for the Core Automated System for Mobility G081 Application System, 30 March 2003

(c) DISA IM, OP7, Re-Accreditation Recommendation for the Core Automated Maintenance System for Mobility G081 Application System, 17 March 2003

(d) System Security Authorization Agreement for the Core Automated Maintenance System G081 for Mobility Application System,

Preparer: Ms. C. Santos-Logan/COA/(703)681-2623/ts

1. In accordance with provisions set forth in reference (a), and based on review of references (b) through (d), an Authority to Operate (ATO) is issued for the Core Automated Maintenance System (CAMS) for Mobility (G081) Application System. This system is authorized to process information up to and including Controlled Unclassified Information (CUI) in a System High mode of operation. This ATO expires 1 April 2006.

2. During this period, you must accomplish the following:

a. Continue to revise and maintain the System Security Authorization Agreement (SSAA). Comments from our review of the current SSAA will be forthcoming under a separate memorandum.

b. Continue to work with the appropriate Field Security Operations representative to close findings identified during certification testing. Ensure closure of these findings is annotated in the Security Readiness Review Database.

DISA IM, CIO, Statement of Accreditation for the Core Automated Maintenance System for Mobility G081 Application System, Tracking Number 7629905

3. If any of the following occurs, you are required to contact this office immediately:

a. Mission requirements to process information higher than CUI are identified.

b. Changes are made to either the approved system configuration or present mode of operation.

c. The equipment is relocated to a different environment.

d. Any Category I findings are identified.

4. Retain this memorandum, as it serves as your ATO. Continued accreditation is contingent upon your conducting an annual accreditation baseline review. Submit a copy of the baseline review, to include any changes to the SSAA, to this office each year on the anniversary of this memorandum until the system undergoes re-accreditation.

5. Questions may be directed to Ms. Regina M. Meehan, Chief, Information Assurance Division, at (703) 681-4688 or DSN 761-4688.

SHIRLEY L. FIELDS
Chief Information Officer
